

Sage Timeslips Premium

Scalable, faster, and built on a more stable, secure, and modern platform.

Go Premium

Sage Timeslips Premium includes everything Sage Timeslips is known for, including the ability to easily customize bills, flexible billing arrangements, industry-specific billing formats, easier automatic time capture, and more.

Consider Sage Timeslips Premium as the next generation of our award-winning billing, time and expense tracking solution. Built on the faster, more flexible, and modern SQL-like Firebird platform, Sage Timeslips Premium offers benefits to our customers previously unavailable in our traditional solution. These benefits include limitless database size capacity, 5x faster bill generation, and a database that is more resilient to corruption due to network transmission outages or latency.

Sage Timeslips Premium is only available on an annual subscription basis. The price of subscription includes the latest version of our software, unlimited free product updates and unlimited free access to premium support. Customers may choose to pay the subscription fee upfront and will receive a generous discount, or may select to pay the full subscription fee in installments over 12 months.

Designed with your time in mind

Sage Timeslips understands that as a services business, your time is your product. We also know that billing and cash flow are the life blood of your business. Sage Timeslips Premium not only makes it easier for you to track where time and money are spent, but we also make it simpler for you to generate bills for your services.

Key feature improvements

Billing Assistant

- Easier navigation through multiple client records in the multi-client view
- Redesigned calculations layout makes it easier to follow influencers of totals displayed.
- Simpler attachment management - displays all client and slip attachments, providing a preview image when available, and a file location and slip ID for tracking.

Slip Value Dialog redesign

- Improvements to slip value dialog design include visibility of more details on influencers of slips and a cleaner, less cumbersome flow of values and totals.

Better network control and management

- Sage Timeslips now keeps track of all network-created database locations for easy access and navigation between multiple databases.
- Quick and easy access to uninstalling, installing and reconfiguring database and application setup.
